The City of Herculaneum Military/Veterans Banner Program has been established to honor and recognize active duty personnel or military veterans. All active military personnel and veterans regardless of residence are eligible to be recognized.

The Military/Veterans Banners will display an official military photo of the service member or veteran, as well as their name, rank (if known), branch of service, military actions or years of service during peace time.

The banners will measure 24" X 36" and will be printed on both sides. Banners will be made of a high quality banner material.

The banners will be installed and exhibited on the street light poles that have the appropriate hardware for the banners. The first banners will be installed along Joachim Avenue until all twenty-seven locations are used. Additional banners will be installed on other streets as the banners are sold.

**SNOW REMOVAL ON CITY STREETS AND ROADWAYS**

Now that the winter months are upon us, Mark Johnson, Public Works Supervisor, reminds all Herculaneum residents to refrain from parking on the city streets and roadways during days of inclement weather (snow and ice). The removal of snow from the city streets is greatly impeded when vehicles are parked on the streets and roadways.

It is extremely important that the streets be cleared for the passage of emergency vehicles, delivery trucks and the daily commutes by the residents.

The City of Herculaneum and the Public Works Department greatly appreciate your cooperation with this request.

**Heating Safety**

When the weather turns cold, it can bring a chill into our homes. Portable space heaters have become a popular way to supplement central heating or heat one room. If you plan to use portable electric space heaters, the City of Herculaneum encourages you to follow these tips and recommendations:

**HEATER CHECKLIST**

- Purchase a heater with the seal of a qualified testing laboratory.
- Keep the heater at least 3 feet (1 meter) away from anything that can burn, including people.
- Choose a heater with a thermostat and overheat protection.
- Place the heater on a solid, flat surface.
- Make sure your heater has an auto shut-off to turn the heater off if it tips over.
- Keep space heaters out of the way of foot traffic. Never block an exit.
- Keep children away from the space heater.
- Plug the heater directly into the wall outlet. Never use an extension cord.
- Space heaters should be turned off and unplugged when you leave the room or go to bed.
